PORTAYARD 3 WAY DRAFT

TOWABLE SHEEP YARD

and

URANAGONG 2 WAY DRAFT

PORTABLE SHEEP YARD

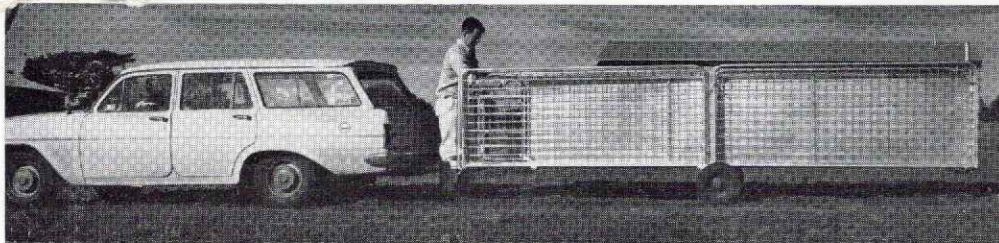

MANUFACTURED BY

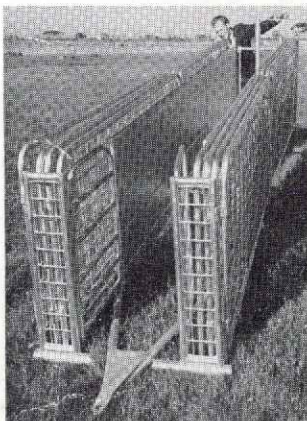

PORTAYARD 3 WAY DRAFT

TOWABLE SHEEP YARD

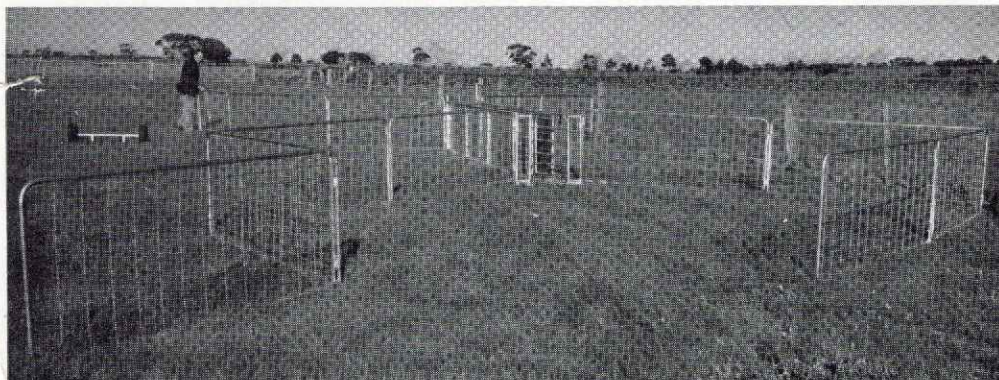

ERECTION

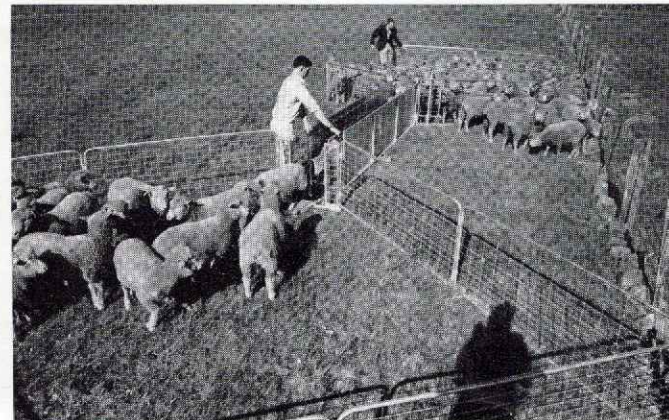

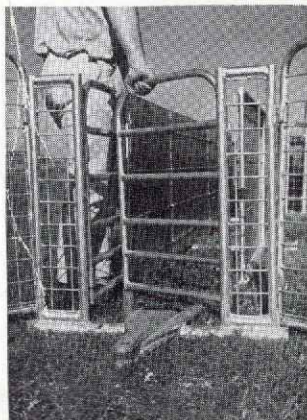

1 The well balanced portayard is easily towed behind car, tractor or truck to any part of your property.

2 Simply turn the handle to jack the portayard up. Two bolts hold the wheels and axle in position.

3 Lay the yard out to your requirements, utilising the paddock fence — see suggested layouts on the back page.

4 Within a few minutes, the yard is ready, easily handled by one person.

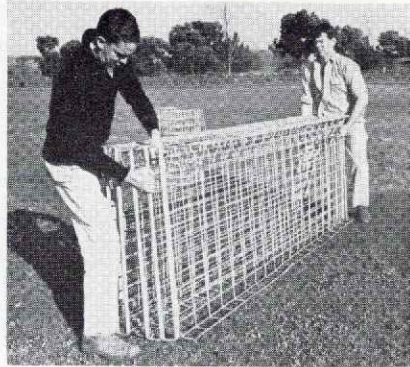

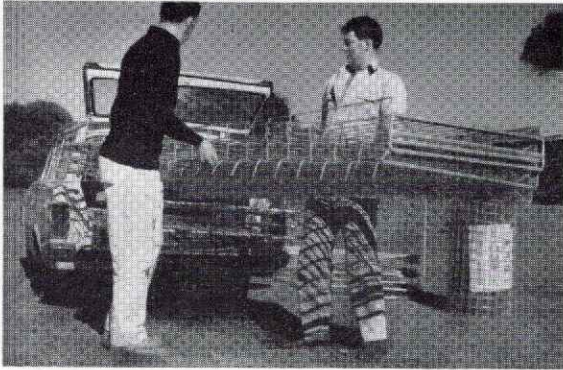

5 Note the heavy duty 3 way drafting. Sheep easily skip over the flat towbar.

6 You will appreciate the convenience and the savings in taking your yard to the sheep.

URANAGONG 2 WAY DRAFT

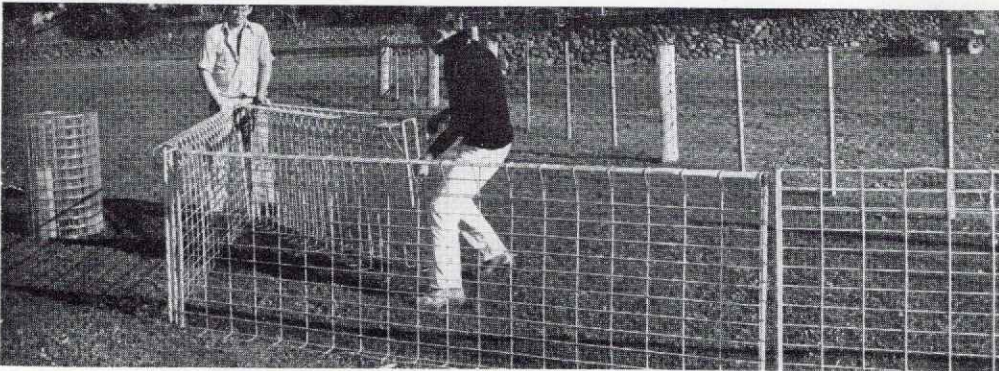

PORTABLE SHEEP YARD

ERECTION

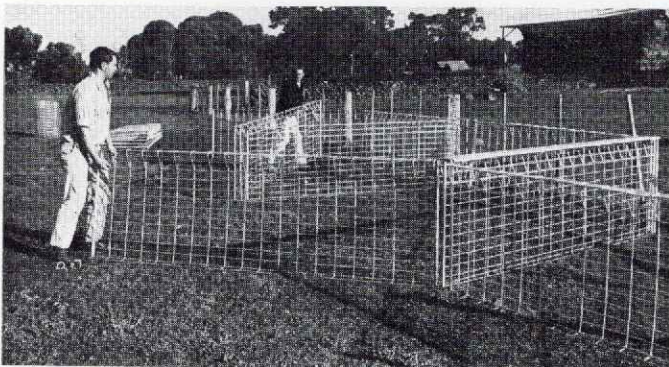

1 Transport the "Uranagong" in utility or truck to any part of your property.

2 The lightweight adaptable panels are easily handled by 2 men. Simply open out the panels to your yard requirements.

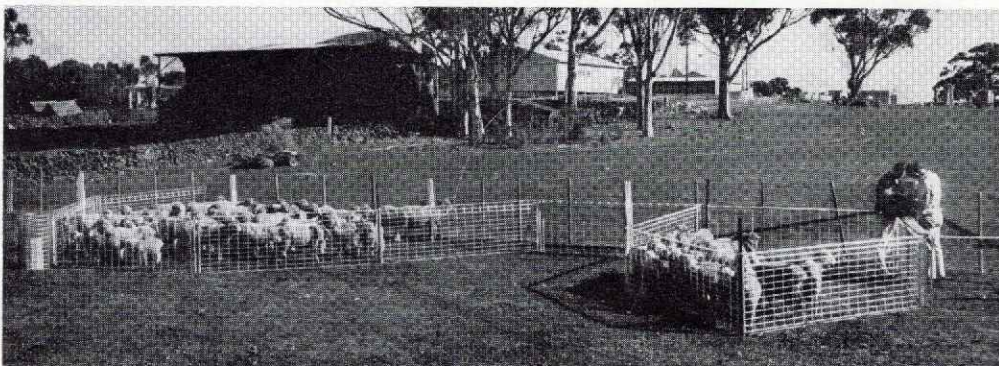

3 The unique jointing units provide quick erection. In 30 minutes the yard is ready for working. The roll of mesh can be used for increased holding capacity.

4 Utilise the corner of the paddock for two sides of the yard — see suggested layouts on the back page. Note the lamb marking board attached to one panel.

5 Drive the star posts in, to ensure rigidity in the yard.

6 Your lightweight, easily transported yard is ready for work.

This farmer designed portable yard is the answer to your lamb marking, drenching, and general sheep working requirements.

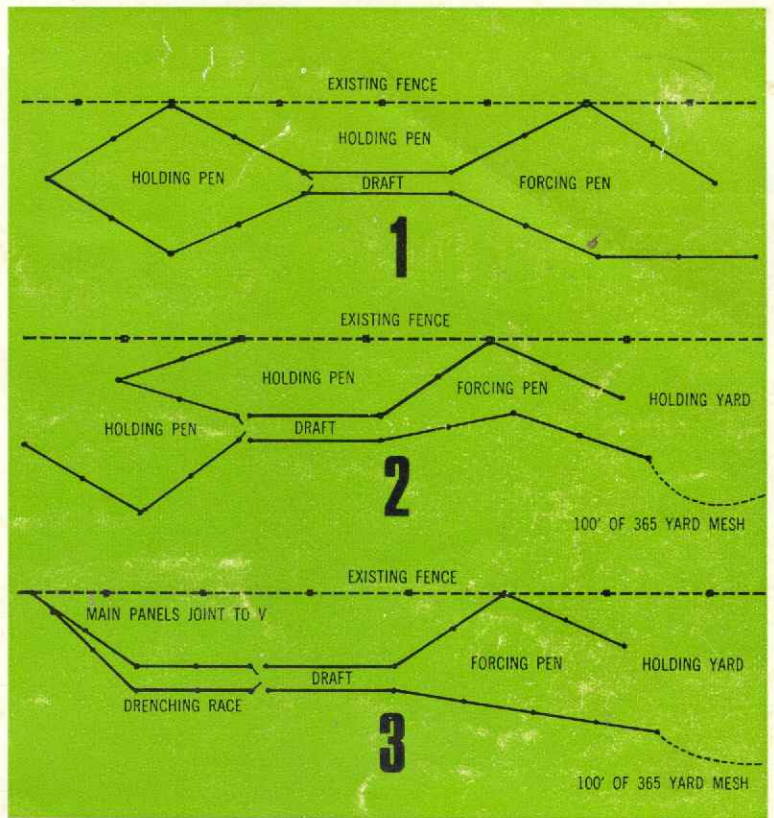

PORTAYARD

3 WAY DRAFT

TOWABLE SHEEP YARD

TYPICAL LAYOUTS

This is a sophisticated, heavy duty portable yard designed and patented by a farmer. Without doubt, it is the simplest, most effective portable yard available. The long blind race (15'0") and the 3 way drafting gives the Portayard all the advantages of a permanent homestead sheepyard — plus the significant advantage of easy transport. The Portayard can be set up by one man in a few minutes!!!

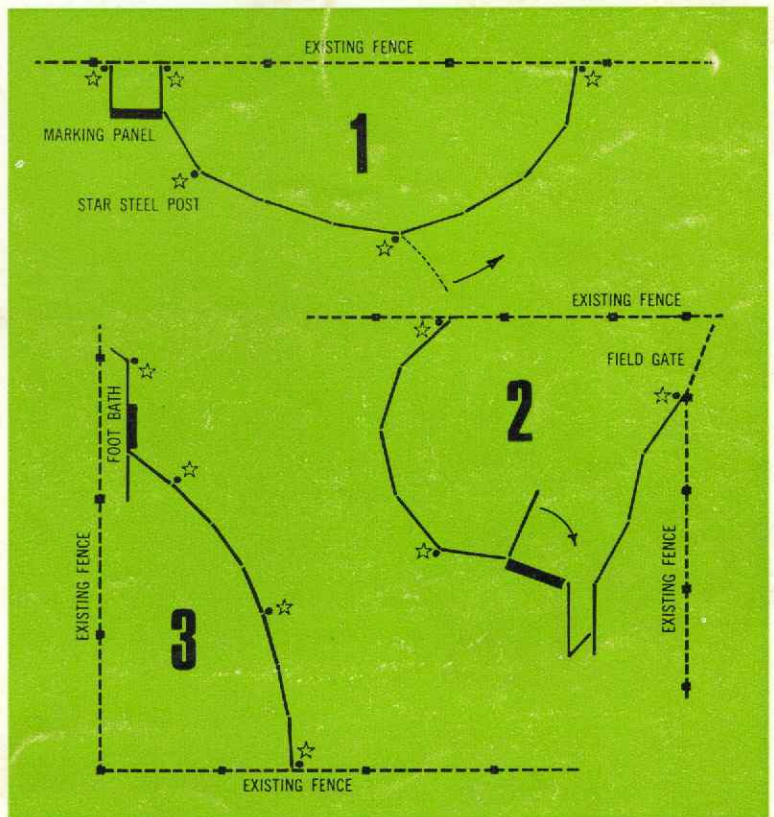

URANAGONG

2 WAY DRAFT

PORTABLE SHEEP YARD

TYPICAL LAYOUTS

Also designed and patented by a farmer, the Uranagong Yard is a simple economical yard, that can be easily stored in the shed, transported in your utility or truck, and set up by 2 men in 30 minutes. The lightweight construction and simplicity of design makes the "Uranagong" a very popular portable yard.
